At Phillip Destruge Portraits, we're *all about* ...

A personalized customer experience. We understand that not every person is the same; that tastes & style differ from one individual to the next.

YOU may like big & fancy clothing but someone else might enjoy a more simple look of jeans & a white tee. We encourage you to BE YOU but allow us to capture the best version of it.

At Phillip Destruge Portraits, we're *all about* ...

Creating everlasting tangible memories that will outlive you. We strive to create the kind of artwork that you will want to pass down to your children which they will continue to gift to your following generation.

At Phillip Destruge Portraits, we're *all about* ...

Upbuilding your confidence & making you see yourself in a way you've never experienced before. Women are the caretakers of the family & place the needs & wants of their children & partners ahead of their own. So this is an opportunity that allows you to celebrate yourself for the first time in a long time!

Get glammed up, look stunning & we personally recommend you make a whole day out of it. Dinner or a Girls Night Out. You deserve it!

After

Stopping time for the ones you love. As someone who has lost loved ones, there are so few things that I find priceless as printed memories. At my studio I want to make sure you can have a piece of time that will never exist again.

Your child as a toddler, a 25 year anniversary with your beloved spouse or a significant milestone in your life. Whatever the occasion, they only happen once and we want to make sure we can capture it so that you may be able to hold onto it forever.

TESTIMONIALS

MELISSA M.

Phillip is a 5 Star photographer hands down! Since our first conversation he was so nice and down to earth. He listened to what I had to say about my personal style and what I like... After our first meeting, he sent me a thorough guide on how to prepare for the photoshoot. Photoshoots can be stressful, however, he made me feel very comfortable and like a super model. I have to say that the whole experience was great and fun. No doubt that I would highly recommend Phillip for professional portraits or for a branding photoshoot.

Phillip is such a talented photographer, and I am thrilled with the results and his eye for detail. His calm manner and friendliness gave me all the confidence I needed. I will highly recommend you to others!!

I had the pleasure of having Phillip Destrugé do my professional headshots & maternity shoot. His work speaks for itself! I am in total awe with my photos! He is professional, kind, and makes you feel comfortable (for those who are camera shy). If you are looking for a family portrait, professional/career or maternity photos, reach out to Phillip Destrugé!

ARE WE A *good fit?*

If you value prints and tangible products; it's important to you that printed photographs of the people you love are displayed on the walls of your home or enjoy the nostalgia a custom album provides with beautiful memories.

You understand that specific moments exist that can never be repeated; you recognize that any given point our lives can dramatically change and that no amount of money could put a price on a special moment or person.

For those who want to build a legacy and create heirlooms that they can pass down to their families & across generations.

You prefer a professional photographer to capture you and your loved ones in a style that resembles magazines such as Vanity Fair or Vogue. Not only is the quality of those photographs stunning but remain looking amazing years later.

Not for bargain hunters. We offer a premium service with premium products & in order to provide that level of service, it simply cannot be done for cheap. If a low price is what you're looking for then I highly recommend not spending your hard earned money with anyone, including myself.

Not for those looking for digital images ONLY. Our services cater to clients who want to display their images in their homes; not let them sit on a device & possibly get lost or deleted. These images deserve more appreciation than to just be posted on Instagram or FB for a few likes.

This service isn't for those looking for trendy photos or heavy filters. The images produced are meant to be classic and look great no matter what era or trend is in style at the moment. They are meant to be timeless.

Hi, my name is Phillip,

I hope to be the photographer for the amazing photoshoot you have been looking for.

My goal is to make sure that you not only have a great time during the session but to ultimately create images that will make you stare in awe & see yourself captured in a way no one else ever has. I want those images we create together be the ones you want to decorate your home with, gift them to the people you love & be the photographs that your children inherit and pass down to their children so as to create your own legacy. Now lets talk about making that a reality.
